QUANTITY

450 square feet

CONTRACTOR

Myron Ferguson

That Drywall Guy

984 Ridge Road

Broadalbin, NY 12025

INSTALLATION DATE

March 15, 2010

PROJECT DETAILS

The owners have a 200 year old farmhouse that is more than just a house to them, it's their home. They wanted to restore the walls to fit with the rustic theme found throughout the home. The project used FibaFuse Paperless Wall Reinforcement exclusively to reinforce the original plaster walls in the foyer and second story hallways. FibaFuse was easy to embed and the walls were completed with only one base coat of compound. FibaFuse offered a mold resistant option and a crack resistant substrate for the finished coating.
